Professional experience

In my current position at the Fire and Rescue Service I coordinate the technical issues of the Fire Prevention Team. The Fire Prevention Team advises different departments of the municipalities regard to Fire Safety. I am concerned with quality management en knowledge management for the whole team and give support to the Fire Prevention Officers and the Fire Chief in making decisions about Fire Safety. In my previous jobs at the Fire and Rescue Service I did Fire Safety Checks and Advices for new Buildings, Environment, Storage of Hazardous goods, Fire safe use of Buildings, Events, Urban planning and Infrastructure. It's my goal to get and share actual information and knowledge about Fire Safety Engineering. That's why I am an active member of the Cluster Knowledge & Quality of the National Fire Prevention Network (LNB).
